| - IOT/IT Fundamentals | - Leadership and team management |

Research

Project Hedgehog, Northern Kentucky University, December 2025 - April 2026

- Facilitated better video generation and media outputs by creating A/B responses, contributing to a large scale repository for future AI models.
- Accessed research tools from Handshake dashboard in order to complete research processes such as prompting, correction, and image feedback.
- Evaluated and corrected pre-existing AI responses based on direct language in order to create better outputs.

Work Experience

Saint Elizabeth Healthcare

Edgewood, KY

Room Service Ambassador Specialist

November 2024 - February 2026

- Worked a variety of positions, including food preparation, call centers, and IT to facilitate the fulfillment of patient and staff culinary needs.
- Took orders for and served meals to both patients and hospital staff in a timely manner, managing up to 100 food orders per shift for multiple floors including auxiliary and ICU units.
- Worked closely with nurses and nutritionists to adhere to patients' dietary needs and monitor glucose.

Work Experience, continued

Poseidon's Pizza Co.
Shift Manager

Hebron, KY
November 2021 - August 2022

- Created employee schedules and led training and coaching for supervised employees.
- Managed inventory orders, handled cash drawers and tips, and ensured security during closing shifts.
- Upheld company integrity by addressing employee and customer complaints and resolving negative situations in compliance with organization procedures.

Activities

Alpha Sigma Phi

August 2023 - December 2025

Founding Father, Rho Nu Chapter

- Coordinated a variety of events in partnership with organizations on- and off-campus.
- Created a board of leaders among members to ensure continuity of the chapter.
- Communicated with current and prospective members to create a positive environment with clear behavioral guidelines and goals of the organization.
